Walker's Viking Ship-Log Connector.

Walker's 'TRIDENT' Electric Ship-Log

By installing this instrument the 'distance run' can be transmitted electrically to the Chart House, thus enabling the Officer 'On Watch' to take the Log readings himself without having to send a seaman aft for the purpose.

Walker's 'VIKING' Ship-Log Connector

By fitting the Connector on a boom amidships, the Patent Log can be streamed alongside the ship, well clear of the propellers.

Also Makers of:—

'Trident' Ship Log (Non-Electric); 'Cherub' II Ship Log; 'Excelsior' III Yacht Log; A.1. 'Harpoon' Log; 'Harpoon' Sounding Machine and the 'Cherub' and 'Trident' Ship Log Connectors.

THE MERCANTILE NAVY LIST.

THE List is divided into three divisions: (1) Steam, (2) Motor, and (3) Sailing. Vessels which are fitted with auxiliary motors are included in both the Motor and Sailing divisions, their names being printed in italics.

The name and address of the Owner, or Part Owner, are printed in ordinary type.

A cross prefixed to the name of any person signifies that he is registered as "Managing Owner" under section 59 of the Merchant Shipping Act, 1894.

The printing of the name and address of any person in italics signifies that such person, though not the owner of shares, has, under section 59 of the Merchant Shipping Act, 1894, been registered in the United Kingdom as the person ("Manager" or "Ship's Husband") to whom the management of the ship has been entrusted.

Great care has been taken in the compilation of this book, but should any typographical or other errors be detected it is requested that they may be pointed out to the Registrar-General of Shipping and Seamen, at the address given below, in order that the necessary corrections may be made in the next Edition.

NOTICE.

The International Code of Signals.

THIS CODE is the universal means of communication between the Ships and Signal Stations of all nations. It is used on board His Majesty's ships, and has been adopted by all the principal maritime Powers for their Imperial as well as for their Mercantile Navies, viz.:—

England.	Russia.	*Spain.
*France.	Greece.	*Portugal.
America.	*Italy.	Brazil.
*Denmark.	*Austria.	Belgium.
*Holland.	*Germany.	*Norway.
*Sweden.		

As the Code has been universally adopted, the necessity is apparent that the officers and men of the British Mercantile Marine should be familiar with it; the Lords Commissioners of the Admiralty have accordingly ordered that all men belonging to the Royal Naval Reserve, who act as Masters and Mates of ships, are to be instructed in its use; and the Board of Trade, on the recommendation of the Committee of Lloyd's, have directed that all Candidates for Masters' or Mates' Certificates of Competency must pass a satisfactory examination in the "International Code of Signals."

The International Code is the *only Code* now used at the Signal Stations on our Coasts, and at the Signal and Semaphore Stations of other countries, and the officers at these Stations have *no means of understanding or signalling by any other Code.*

It is therefore important that ships should be provided with the means of signalling by this Code, as cases have been reported in which officers at the Signal Stations have hoisted the International Code Signals warning ships of danger and the ships have been afterwards lost from the inability of the Masters to read the signals.

Ships should be provided with the latest edition of the International Code of Signals, which came into force in January 1901 and has been amended from time to time, together with the Supplement showing all the corrections made since the first edition. The Code and Supplement can be obtained directly from H.M. Stationery Office at the addresses given on the title page, or through any Bookseller.

Commercial Maritime Signalling.

The Society of Lloyd's, incorporated by Act of the British Parliament and the Royal Assent of Her late Majesty Queen Victoria, has,

---

with the sanction of Parliament, the control and working of Signal Stations in Great Britain and Ireland, and in many places abroad. Various foreign Governments have also recognised the advantage of reports from Signal Stations and Semaphores being universally collected and forwarded on identical conditions. These have arranged that reports from or to their Semaphores can be obtained or forwarded through Lloyd's.

Thus one universal system of receiving and transmitting maritime reports extends over a wide area. The organisation of Signal Stations is made very favourable for shipowners and merchants, and the commerce of the world in general. If, for instance, a shipowner, charterer, or consignee, wishes to transmit an order to any vessel at any point where she may appear, one communication to Lloyd's is sufficient to ensure the message being given at any or all of these Stations, as may be desired.

The charges for forwarding information from or transmitting advices by means of Signal Stations are moderate. Shipowners, charterers, merchants, or consignees, can obtain telegraphic intelligence at small cost with regard to any vessel in which they may be interested, or postal advices if so preferred, or can transmit orders to such vessels by merely communicating with Lloyd's.

Harbour and Dock Authorities, Chambers of Commerce, Exchanges and such Institutions that may require a large number of reports can arrange with Lloyd's for receiving full and regular advices from Lloyd's Signal Stations on reduced terms, for when a number of reports are taken a substantial reduction is made in the signalling fees.

Shipowners or others who wish to be supplied with reports of vessels from any Signal Station are requested to communicate with the Principal Clerk, Lloyd's, London, E.C.3.

The following is a list of Signal Stations at which signals are received from and made to merchant vessels of all nations:—

NORTH AMERICA.

ST. LAWRENCE—The following Signal Stations are maintained by the Government of Canada. Orders forwarded to Lloyd's can be transmitted to vessels by means of these Signal Stations on the same conditions as through Lloyd's Signal Stations. Vessels signalling to these Signal Stations will be reported to Lloyd's in the same manner as if signalled from Lloyd's Signal Stations:—

Cape Rosier, Fame Point, Cape Magdalen, Father Point (Canada).

WIRELESS STATIONS.

All Wireless Shore Stations which have been established in the United Kingdom for ship to shore communication have been taken over by the General Post Office, but Lloyd's receives information from these Post Office Stations in regard to the position and movements of Ships and other maritime intelligence.

GALES.

The Meteorological Office, Air Ministry, sends to certain Signal Stations a warning telegram on any occasion when a gale is expected to occur within 50–100 miles of the Station. The fact that one of these notices has been received at any Station is made known by hoisting a black canvas Cone, three feet high and three feet wide at the base, which appears as a triangle when hoisted.

The "South" Cone (*point downwards*) is hoisted for Gales—

Signal Letters of British Ships.

This list is prepared for the purpose of enabling officers at Signal Stations on shore and Masters of Ships at sea, to signal and report passing ships. It is published annually, and contains to the date of its publication the name and distinguishing signal of every British registered Ship to which a *Code* Signal has been allotted. The particulars of each Ship are given, both in the order of the signal letters and in the alphabetical order of their names. In the Appendix the names of certain Foreign Ships having International Code Signals are inserted. The price of the List (including the Appendix) is 3*s.* 6*d.* net.

Monthly Supplements are also issued.

Appendix to Signal Letters of British Ships.

Masters or Agents of ***Foreign*** Vessels may have the names of their Ships and their Ships' International Code Signals inserted in the Appendix to the List on application to the Registrar-General of Shipping and Seamen, Tower Hill, London, E. 1, and on payment of a fee of 5*s.*

Signals for Ships' Names.

Application for the allotment of a *Code* Signal for the purpose of making a Ship's name known at sea should be made, if the Ship belongs to Great Britain or Northern Ireland, to the Registrar-General of Shipping and Seamen, Tower Hill, London, E. 1; and if she belongs to a British Oversea Dominion or Protectorate, to the Registrar of Shipping at the port to which the Ship belongs. Forms for this purpose can be obtained at any Custom House in Great Britain or Northern Ireland.

As it is important that the Signal Letters, when appropriated to any vessel, should in all cases be ***marked upon the Ship's Certificate of Registry***, the Certificate should be forwarded with the application if possible.

Reports of Speakings.

Forms for reporting Ships spoken at sea, disasters, &c., will be supplied on application being made to the Principal Clerk, Lloyd's, London, E.C. 3.
